---

Summary

As a motivated and dedicated individual, I am seeking an entry- level position where I can apply my academic knowledge, enhance my professional skills, and contribute to the growth of the organization. I am eager to work in a dynamic environment that values learning, respects hard work, and emphasizes integrity.

Skills

Languages: HTML5, CSS3, JavaScript (ES6+), TypeScript
Frameworks: React.js, Next.js
Styling: Tailwind CSS, Bootstrap,
State Management: Redux, React DOM, Context API
Tools: Git, GitHub, VS Code, Netlify, Vercel, Figma
Other: Responsive Design, REST API Integration, Firebase

Experience

Frontend Developer – Freelance / Personal Projects

Apr 2025 – Present

- Developed and deployed React-based websites with clean, component-driven structure.
- Styled responsive layouts with Tailwind CSS and optimized for performance.
- Hosted live sites using Netlify and Vercel.

Projects

E-commerce Website Hekto: https://hekto-e-commarce-website.vercel.app/

- Built with Next.js + Tailwind CSS.

E-commerce UI (Frontend Only)

- Fully responsive e-commerce frontend using next.js and Tailwind CSS.
- Product listing, filtering, search, and cart functionality using Next.js state.
- Dynamic product pages and navigation with Next.js Router.
- Used dummy JSON data for product details and simulated cart operations.
- Mobile and desktop optimized with a clean, modern UI.
